

Leave XM Radio and it's current benefits alone!As a paid subscriber, I appreciate the options, including traffic and weather that are provided to me. I can't get this type of service, with clarity, little or no commercials, anywhere I travel elsewhere.

The NAB should not be able to tell me, as a paid subscriber what I should or shouldn't be permitted to hear.

I ask you to reject the NAB's petition 04-160.

Thank you,

Bo Bell
